

MOE YE HTET

ELECTRICAL ENGINEER

Address: Laselle Rd 199/784
10260 Bang Na, Bangkok
Email: moeyehtet96@gmail.com

Date of Birth: February 22, 1996
Nationality: Myanmar
Phone: +66-988961408

EDUCATION

August 2015 -
May 2019

Bachelor of Science in Electrical Engineering

Purdue University
West Lafayette, Indiana, USA

- GPA: 2.96/4.00

EXPERIENCE

January 2022 -
December 2023

Project Management Co-Officer

Thate Pan Hub - Innovation Department
Yangon, Myanmar

- Delivered basic computer science courses to over 250 students across three schools in Hpa-an, Karen State, increasing exposure to STEM education.
- Led Training of Trainers (TOT) workshops for volunteer teachers in coordination with the academic team, enhancing local teaching capacity.
- Managed end-to-end production of digital literacy video lectures, including lesson plans, voiceovers and video editing.

February 2020 -
December 2021

Junior Engineer

IEM Company Ltd
Yangon, Myanmar

- Designed schematics and electrical panels for installations at projects across commercial, industrial, and construction sites.
- Coordinated with clients, and conducted site inspections to monitor project progress and proactively resolve technical issues.
- Conducted internal training sessions on electrical components used in projects, improving cross-functional understanding among project teams.

August 2018 -
May 2019

Undergraduate Teaching Assistant

Purdue University - Electronic Measurement Techniques Lab
West Lafayette, Indiana, USA

- Supported over 50 students during the academic year by providing hands-on and theoretical assistance during lab sessions and office hours.
- Performed routine maintenance, and managed inventory of lab equipment and electronic components at the lab storage.

August 2016 -
May 2017

Controls Engineer

EPICS Program - Purdue Orbital
West Lafayette, Indiana, USA

- Designed and implemented a PID control system for DC worm gear motor and linear actuator to automate launch platform orientation.
- Developed and laid out PCB designs for the power supply and the control system modules using EaglePCB.

PROJECTS

January 2019 -
May 2019

Digital Wave Synthesizer

Senior Design Project for Graduation
Purdue University

- Designed the charging circuit for the Li-Po battery and DC-DC buck converters for the power supply subsystem.
- Designed the ADSR envelope and class AB amplifier circuits for audio output.
- Designed the PCB layouts for the power supply and sound output subsystems using EaglePCB.

January 2018 -
May 2018

Face-tracking Assistive Phone Mount

Final Project for Microprocessor Systems and Interfacing Course
Purdue University

- Programmed the STM32 microcontroller to control the servo motors according to the camera input, and to integrate with touchscreen interface for manual positioning.
- Designed PCB layout for the project, including the power supply circuit using EaglePCB.

SKILLS

Administrative:	Microsoft Office Suite, Google Suite, Slack
Engineering:	AutoCAD, EaglePCB, LTSpice, Linux, MATLAB
Programming:	C, C++, Python, Javascript, Typescript
Language:	English (C1), Japanese (N2), German (Beginner), Burmese (Native)

LEADERSHIP

August 2017 -
May 2019

Chair of Multicultural Relations Committee

Electrical and Computer Engineering Student Society
Purdue University

August 2018 -
May 2019

Co-founder and Vice President

Myanmar Students Association
Purdue University
