EDUCATION

B.S. Electrical Engineering

Purdue University (West Lafayette, IN)
2015-2019

SKILLS

Administrative

Microsoft Office, G Suite, Slack

Programming

C, C++, Python, Javascript

Engineering Tools

MATLAB, EAGLE, LTSpice

Language

English, Burmese, Japanese (N3)

LEADERSHIP

Chair of Multicultural Relations

ECE Student Society (Purdue)
2017-2019

Co-founder and Vice President

Myanmar Students Association (Purdue)
2018-2019

Project Management Co-officer

Thate Pan Hub
2021-Present

HONORS

Myanmar President's Scholarship

2015-2019

Eli Shay Scholarship (Purdue ECE Department)

2016-2017

OBJECTIVE

A highly motivated electrical engineer with hands-on engineering knowledge, teamwork skills and leadership experience. Seeking a full-time position where a difference can be made in renewable energy sector in Myanmar.

EXPERIENCE

Undergraduate Teaching Assistant

Purdue University (Electronic Measurement Techniques Lab), 2018-2019

- Led the lab sessions and provided technical and theoretical assistance to students.
- Performed equipment maintenance and kept inventory of lab materials.

Controls Engineer

EPICS Program (Purdue Orbital Team), 2017-2018

- Designed PID control system for DC worm gear motor and linear actuator.
- Designed the power supply circuit for the control system.

Undergraduate Research Assistant

Vertically Integrated Projects (Signal Integrity Team), 2017

- Conducted research about electromagnetic compatibility regulations and suitable compliance testing techniques.
- Developed a radiative and conductive compliance test using the spectrum analyzer.

PROJECTS

Digital Wavetable Synthesizer

Senior Design Project, 2019

- Designed the charging circuit and DC-DC converters for the power supply subsystem.
- Designed the ADSR module and amplifier circuit for sound output subsystem.
- Designed the PCBs for the power supply and sound output subsystems.

Face-tracking Assistive Phone Mount

Microprocessor Systems and Interfacing Final Project, 2018

- Performed system integration of LCD touchscreen controls and servo motors.
- Designed power supply circuit and PCB for the project.
